

DEDICATO DESIGN
MILANO

PORTFOLIO

THE NAME It stand for our shared passion for a song that represents inclusivity, forgiveness, and dedication. Our deep friendship and mutual respect have driven us to create a design studio with the intent of leaving a mark through our work. We are grateful for the opportunity to create custom works and projects for our clients.

DEDICATO DESIGN
MILANO

THE STUDIO Dedicato Design
Milano is a design and creative direction studio located in Milan, founded by Giacomo Scarcia and Riccardo Zegna Baruffa.

Our philosophy is based on a conceptual approach inspired by each individual project, drawing from a broad iconographic and visionary background. This allows us to generate results that we hope are unique. Our connection with music and art enriches our work and makes it particularly meaningful.

We pay great attention to detail, combining different styles to create exciting interactions between the space and the people who inhabit it, a characteristic that we consider fundamental in every project we undertake.

SKILLS Dedicato Design
Milano offers a variety of creative services, including interior design, custom furniture design, and graphic design. We focus on interior design, aiming to create functional and welcoming spaces with attention to both aesthetic and practical aspects. We are also dedicated to custom furniture and furnishings, striving to deliver solutions that meet our clients' needs. Additionally, we provide graphic and digital design services, supporting businesses and individuals in developing visual identities and communication materials, always with a focus on innovation and quality.

FOUNDERS

RICCARDO ZEGNA BARUFFA

Born and raised in Biella, he moved to Milan to attend NABA, where he immediately began a fruitful collaboration with his partner, Giacomo. This partnership marked the beginning of his journey in the world of design, which took shape through professional experience at Studio 2046 in Treviglio. Here, he developed and refined his creative skills, launching his career in the field.

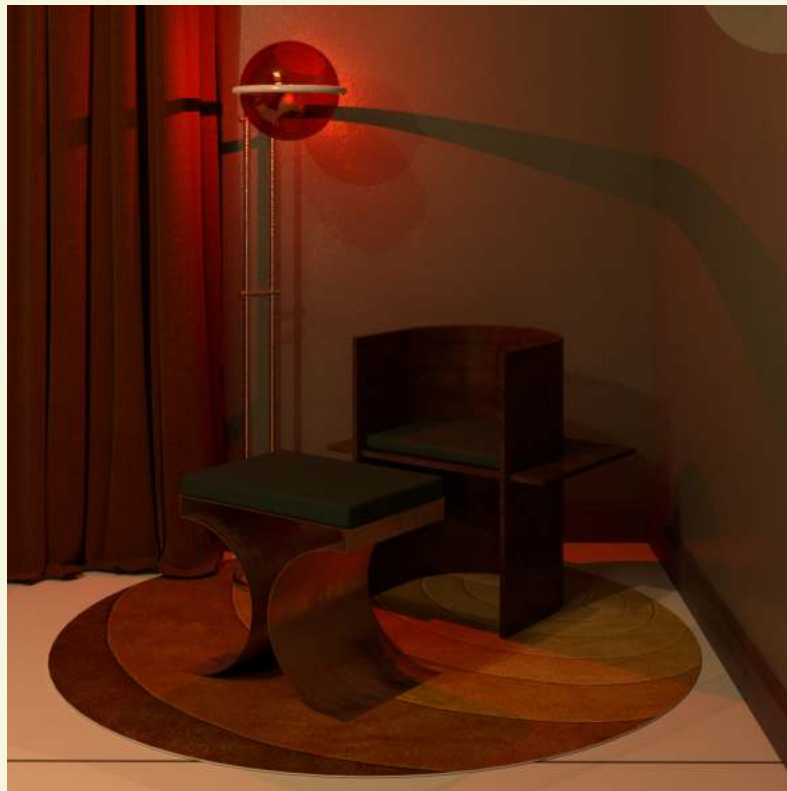

FOUNDERS

GIACOMO SCARCIA

Born and raised in Trieste, he founded Tellus Sistemi Antisismici in 2018, a project reflecting his commitment to safety and innovation. He later moved to Milan to begin his studies at NABA, where he connected with Riccardo, sparking a creative collaboration. He took his first steps in the design world at Studio 2046 in Treviglio, an experience that marked the start of his professional career in the design sector.

DEDICATO DIVA

The Diva lamp, designed by Dedicato Design, is a tribute to the timeless elegance of vintage design. It features a brushed steel structure and a solid wooden base, with the option to be customized in various color combinations. Its aesthetic evokes retro lines reinterpreted with a modern twist.
